U.S. Citizen | (xxx) xxx-xxxx | jyang378@asu.edu | www.linkedin.com/in/jadeyang27

EDUCATION

B.S. in Applied Computing – Cybersecurity

Arizona State University | Dean's List

August 2023 – May 2026

GPA: 3.81

SKILLS

Tools/Systems: Kali Linux, SEED Ubuntu, Wireshark, Java/C, Autopsy, FTK Imager, WinPrefetch View

National Security: TOP SECRET TS/SCI Clearance, Military Logistics, OSINT

Languages: Mandarin, English

EXPERIENCE

Honors Intern

June 2025 – Present

Federal Bureau of Investigation (FBI)

San Francisco, CA | Phoenix, AZ

- Led a counterintelligence outreach initiative delivering defensive briefings to elected officials and senior staff across the Bay Area, enhancing protection against foreign influence threats
- Conducted multi-language OSINT investigations and analyzed subpoena returns to identify patterns, producing analytical reports that directly supported active FBI casework

Student Consultant

August 2025 – December 2025

Indiana National Guard | Hacking for Defense (H4D)

Remote

- Developed a Public-Private Partnership (PPP) business model proposal and “daisy-chain” training ecosystem connecting multiple complementary training sites, enabling scalable, cost-effective Multi-Domain Operations (MDO) training despite zero dedicated funding
- Analyzed cross-domain IEW training needs—cyber, EW, land, air, sea, and space—and collaborated with DoD sponsors and Guard leadership to create a phased, low-cost MDO range concept that accelerates readiness and strengthens regional training capabilities

PROJECTS

System Information Utility in C

May 2025

- Created a C-based Linux system utility to display time, processor info, memory usage, and process statistics using POSIX system calls like *sysinfo* and *get_nprocs*
- Converted and formatted raw system data such as memory usage (total memory, available memory, shared memory) into readable output with proper unit (MB/GB) and precision

Array Manager in Java

April 2025

- Designed a custom array management system in Java simulating virtual-to-physical memory mapping using page tables and frames
- Implemented exception handling (OutOfMemoryException, SegmentationViolationException) and features like Copy-on-Write (COW) to optimize memory sharing and data isolation

LEADERSHIP

President

May 2025 – Present

Club Tennis at ASU

- Oversee team operations, manage a \$30,000+ budget, and handle public relations and compliance while serving as the primary liaison to USTA, ASU Sports Clubs, and university teams.
- Lead planning and logistics for tournaments with 150+ players—including the annual Devil's Classic—while coordinating officers and fostering a positive, inclusive team culture.

Site Director

June 2024 – August 2024

United States Tennis Association PNW

- Employed example-based instruction style to build trust as hands-on leader and guaranteed safety of activities
- Facilitated open and constructive communication across staff and student groups to align on goals and maintain high program standards
